

Qodewire

<https://qodewire.com>

Qodewire (formerly Cyber Pro Kenya) has grown from a bunch of ambitious freelance developers to a fully-fledged team of digital entrepreneurs. With 2 offices across the continent, the company boasts a solid background of services offering Website Design & Development, SEO, Software Development, Web Hosting, Digital Marketing, Ethical Hacking, and On-site training. In a nutshell, Qodewire has the expertise, staff, and background to provide businesses with the full digital package. This “package” concept reduces time and ensures continuity in administering marketing and advertising needs, thus adding to the bottom line profitability.
