Online Accounting Made Simple
www.uhasibu.co.ke

Uhasibu the award winning cloud-based accounting package is our main product, launched September 2011. It's the most relevant accounting package in the East African region delivering improved financial management and ease of regional trade for SMEs. The system is both web and mobile(web) enabled. Uhasibu continues to offer the strongest value-add of any accounting package in East Africa by supporting the local business environment and integrating with local financial services and institutions. www.uhasibu.co.ke Some highlights: - It includes an easy invoicing and tracking management system. - Supports project based accounting to easily manage company projects.. - It includes a management system for petty cash. - It is designed to work in the cloud in both PC and mobile web. - The system supports East African currencies. - The accessible pricing model for the system is 1000 Kes/monthly (+VAT)

small

Areas of Expertise

Software As A Service for SMEs in East Africa - our vision is to create a better everyday life for small businesses in East Africa, through the use of innovative cloud based management systems. Our business idea supports this vision by offering localized products that fit the exact operating environment that the clients work within. Accounting principles are universal but tax-laws and workflows are different from market to market.
